

## **FUNCTION 920: ALLOWANCES**

### **SENATE BUDGET RESOLUTION FOR 2001**

---

Function 920, Allowances, usually displays the budgetary effects of proposals that cannot be easily distributed across other budget functions. In past years, Function 920 has included total savings or costs from proposals associated with emergency spending or proposals contingent on certain events that have uncertain chances of occurring, such as the President's proposal for increased discretionary spending from the Social Security Surplus contingent on Social Security reform.

---

#### **CHAIRMAN'S MARK**

(\$ Billions)

	2000	2001	2002	2003	2004	2005
Budget Authority	0.0	-4.4	--	--	--	--
Outlays	0.0	-4.2	-1.3	-4.8	-6.8	-6.1

#### **Discretionary**

The Chairman's mark assumes discretionary savings in this function would total \$4.4 billion in BA and \$4.2 billion in outlays for 2001. Such savings are possible by reversing the nondefense, civilian pay date delay enacted at the close of the first session of this Congress and by reducing federal costs in certain programs that appear throughout all budget functions. Reversal of the pay date delay was proposed in the President's budget.

#### **Mandatory PAYGO**

The Chairman's Mark assumes no mandatory increases or decreases in this function.

## FUNCTION 920: ALLOWANCES SENATE BUDGET RESOLUTION FOR 2001

### COMPARISON OF CHAIRMAN'S MARK WITH PRESIDENT'S BUDGET AND SBC BASELINE (\$ Billions)

	2000	2001	2002	2003	2004	2005
