CONGRESSIONAL RECORD — HOUSE 34415

$50,000 death benefit to Federal firefighters and law enforcement officers because the benefits provided under FECA are simply generous and would in many cases exceed the $50,000 payment authorized for State-local public safety officers.

Although the costs entailed in H.R. 5886 are not large, the special treatment provided by the bill would inevitably set a precedent for extension of its benefits to other, if not all, Federal employees who die in the line of duty. This would result in an unwarranted and costly added burden on the taxpayers of this Nation.

Finally, the retroactive provision in the bill is objectionable by arbitrarily excluding employees whose deaths occurred before the effective date.

For all of these reasons, I cannot approve H.R. 5886.

JIMMY CARTER,
H. R. 4386
MEMORANDUM OF DISAPPROVAL

I am withholding my approval from H.R. 4386, a bill “For the relief of Mr. and Mrs. Clarence Oveson.”

H.R. 4386 would direct the Secretary of the Treasury to pay $50,000 to Mr. and Mrs. Clarence Oveson of Saint Louis and Koochiching Counties, Minnesota.

The payment would be for full settlement of the Ovesons’ claims arising from the administration of the Federal Forest System lands and for other purposes as originally introduced in Congress, this was a noncontroversial bill providing a special procedure for conveying small parcels of land within the National Forest System. Sections one through seven of the bill would accomplish this purpose. However, during the closing hours of Congress, a new section 8 was added that would adversely affect the Alaska Railroad, an agency of the Department of Transportation.

Section 8 would require the Secretary of Transportation to issue regulations for the rental of Alaska Railroad lands under terms that would result in a loss of revenue to the Railroad, provide for inequitable treatment of different tenants, and create a complicated method for determining rents that would be extremely difficult to administer. It would further delay the Railroad’s effort to raise its lease rents to fair market value, and it would lock into statute past practices that have been criticized by the General Accounting Office and the Department of Agriculture. It would also inhibit the Railroad’s ability to establish a modern lease land development program consistent with normal commercial practice.

The Railroad is operated as a self-sustaining business by the Federal Government, to the benefit of the State of Alaska and its citizens. Rental income from rail lands is used to pay part of its operating costs. The loss of revenue resulting from this bill may force the Railroad to curtail service or require a new federal operating subsidy to make up the difference. A curtailment of service would injure those shippers and residents of Alaska who use the Railroad, and an increase in federal funds for the Railroad is unacceptable.

For these reasons, I am vetoing H.R. 4387. However, I support those provisions in the bill that would give the Secretary of Agriculture authority to dispose of small tracts of National Forest lands that have become difficult to administer efficiently. This authority, which the Department of Agriculture has been seeking for several years, would greatly facilitate the disposal of approximately 200,000 acres of National Forest lands that present special management problems and would eliminate the need for a case-by-case authorization from the Congress before such lands can be sold or exchanged. Therefore, I urge the 97th Congress to enact similar authority early next year.

JIMMY CARTER,

RESIGNATION FROM THE HOUSE OF REPRESENTATIVES

The SPEAKER received the following resignation from the House of Representatives:

CONGRESS OF THE UNITED STATES,
