MESSAGES FROM THE PRESIDENT RECEIVED SUBSEQUENT TO SINE DIE ADJOURNMENT

Pursuant to the permission granted on October 14, 1978, the Secretary of the Senate, the Adjournment sine die, received the following messages from the President of the United States:

MEMORANDUM OF DISAPPROVAL

I am withholding my approval from S. 1503, a bill that would establish an unprecedented and unprecedentedly unwiseful and unwise use of taxpayer's funds to indemnify private companies for losses incurred as a result of compliance with a federal standard. The Government could be required to pay industry each time new information becomes available that Tris was a "hazardous substance" under the Federal Hazardous Substances Act. This led to the removal of Tris-treated children's sleepwear from the marketplace. The imposition of flammability standards and the consequent ban on Tris-treated fabrics have caused expenditures and losses by industry.

The imposition of strict flammability standards to protect the Nation's children was fully justified. After it was discovered that Tris was hazardous to health, the removal of Tris-treated sleepwear from the marketplace, again to protect the Nation's children, was also fully justified.

The site does not meet the national significance criteria for historic areas established by the Department of the Interior. The Pennsylvania State Historic Preservation Office judged the site of only local significance. A National Park Service report made in June 1977 agreed. Further, the site has been altered by such modern intrusions as roads and railroads. The career of General "Mad" Anthony Wayne has been amply commemorated at other designated sites and I do not believe it added expense of acquiring and developing this site is a worthwhile expenditure of Federal funds.

JIMMY CARTER.
