Amendment No. 45: That the Senate recede from its amendment of the House to the amendment of the Senate numbered 45, and agree to the same with an amendment, as follows: In lieu of the matter stricken out and inserted by the Senate amendment, and the amendment of the House thereto, insert the following:

STATEMENT

Mr. NORRELL. Mr. Speaker, I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER. The question is on agreeing to the conference report.

The conference report was agreed to.

A motion to reconsider was laid on the table.

Mr. NORRELL. Mr. Speaker, I ask unanimous consent to make remarks at this point in the Record.

The SPEAKER. Is there objection to the request of the gentleman from Arkansas?

There was no objection.

Mr. NORRELL. Mr. Speaker, this conference report settles the one amendment remaining in connection with the legislative branch appropriation bill for the fiscal year ending June 30, 1960. All other amendments of the Senate to the bill were agreed to in the House on June 29. The one remaining amendment covered by this report concerns certain salary provisions under the Architect of the Capitol included in the bill as it passed the House but which the Senate had stricken.

Briefly, the House bill included provisions for salary adjustment on five key positions in the Architect's organization.

The Senate did not agree. As explained in the statement of the managers, just read by the Clerk, we have reinstated the provision of the lower figure than the House had believed justified. Under the circumstances, we believe the settlement is reasonable.

AMENDING MINERAL LEASING ACT OF 1920—VEO MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. No. 214)

The SPEAKER laid before the House the following veto message from the President of the United States:

To the House of Representatives:

I return herewith, without my approval, H.R. 6940, "An act to amend the Mineral Leasing Act of 1920 in order to increase certain acreage limitations with respect to the State of Alaska."

An unrestricted doubling of the present maximum allowable holding of oil and gas leases or options—which H.R. 6940, in the case of Alaska, would authorize—would not, in my judgment, be in the best interests of Alaska or the Federal Government.

Rather than providing an inducement to the development of gas resources in Alaska, the bill would tend to produce an excessive concentration of control over such potential resources, and there is no assurance provided by the bill that the interests so held would at any time be developed.

Development contracts and unit agreements already provide relief from acreage limitations when circumstances justify their approval. Any additional concentration of ownership would among other things deter participation in these existing and successful programs which are assigned to provide specific assurance of the expenditure of funds for exploration and development work. The need is for further progress under existing programs, not just speculative or control holding of excessive acreages, if the development of oil and gas resources on public lands is to occur and the interests of Alaska and the Nation are to be served.

I am aware that allowing increased acreage holdings might be of immediate financial importance to our 49th State, but I believe this to be a shortsighted goal for it eventually could well result in depriving both the Alaskan and Federal Governments of substantial revenues. Sacrificing sound principle and the long-run public interest in order to achieve a limited immediate gain does not seem to me to be wise.

Dwight D. Eisenhower,

Walt Horan.

Mr. Speaker, I move that the bill and message be referred to the Committee on Interior and Insular Affairs and ordered to be printed.

The motion was agreed to.
