Page,” disapproved on Sept. 7, 1957). I perceive no basis for reaching a different result under the analogous circumstances of the present case.

Harold William Abbott and others

H.R. 8277. I am withholding my approval from H.R. 8277, an act for the relief of Harold William Abbott and others.

The bill would direct the Secretary of the Treasury to pay $23,317.61 to 11 individuals for the transportation taxes collected after 1945 and before 1952 for transportation in connection with fishing parties. Refund of these taxes has been barred because claims for refund, and the record in the earlier cases, were not filed within the time prescribed by law.

The relief sought in this bill is similar to that sought in a bill which I disapproved last year, H.R. 3199, “For the relief of Toley's Charter Boats, Inc., Toley Engebretsen, and Harvey Homlar.” On March 31, 1953, a Federal court held that the transportation tax did not apply to the type of transportation involved there. At the time of this decision, there remained a period of at least 9 months in which to file timely claims for 1950 and 1951, which would have been refunded to seven of the claimants except for the fact that they filed their claims for refund more than 2 years after the date of the Federal court decision.

In the circumstances, I am constrained to withhold my approval from the bill.

District of Columbia—Police Force and Fire Department

H.R. 3725. I am withholding my approval from H.R. 3725, an act to increase the relief or retirement compensation of certain former members of the Metropolitan Police Force, the Fire Department of the District of Columbia, the U.S. Park Police force, the White House Police force, and the U.S. Secret Service; and of their widows, widowers, and children.

I am unable to approve the 10 percent increase in relief or retirement compensation which the first section of this bill proposes for its beneficiaries. Policemen and firemen who retired before October 1, 1956, records of receiving much more generous treatment than any other group of retired District of Columbia employees. This result from the Equalization Act of 1923 which provides for an equalization of benefits in pensions equal to any salary increases granted active duty policemen and firemen. The equalization feature has operated so effectively that a significant number of these pensioners presently receive a larger pension than their annual salaries while on active duty. Also, under the 1923 law these retirees have forgone part of the District government annuities subject to the civil service retirement program. In the interests of fairness, the present disparity should not be further increased.

I could readily accept the other provisions of the bill to adjust and improve the benefits payable to the widows and surviving minor children of deceased policemen and firemen who retired prior to October 1, 1956. The circumstances of this group are different and I sincerely hope that the Congress, early in the next session, will enact the improved benefits which this class deserves.

Howard F. Knipp

H.R. 2068. I have withheld my approval from H.R. 2068, an act for the relief of Howard F. Knipp.

The bill would direct the Secretary of the Treasury to compute the income tax liability of Howard F. Knipp for the calendar years 1947 and 1948 so that his distributive share of the earnings of the John C. Knipp & Sons partnership, for its fiscal year beginning on February 1, 1947, would be determined on the basis of a full partnership taxable year ending on January 31, 1949.

The record of the Treasury Department show that Mr. Knipp, a calendar year taxpayer, was a member of a two-man partnership which had a fiscal year ending on January 31. The death of Mr. Knipp's partner on November 21, 1947, raised the question of partnership termination on that date. If the partnership terminated on that date, Mr. Knipp had to include in his income for the calendar year 1947 a much greater amount than would have been the case had the partnership continued until the normal end of its taxable year.

On June 2, 1953, the Bureau of Internal Revenue concluded a deficiency against Mr. Knipp on the ground that the death of his partner terminated the partnership and its taxable year. The Tax Court approved the Bureau's position, and the court's decision was affirmed by the Court of Appeals for the Fourth Circuit on April 10, 1957. On October 14, 1957, certiorari was denied by the U.S. Supreme Court.

The question of the partnership termination in this case has been litigated before the courts in an orderly manner, Approval of this bill would encourage demands for legislation overruling court decisions in individual cases and would create an undesirable precedent. The bunching of income in this case has admittedly worked a hardship on Mr. Knipp, but this is mitigated to some extent by the fact that for a number of years Mr. Knipp had the option of deferring payment of tax each year on 11 months of this firm's profits until the following year.
