S. 3553, An act to define the jurisdiction of United States courts in suits against foreign states, the circumstances in which foreign states are immune from suit and in which execution may not be levied on their property, and for other purposes.

S. 3790

MEMORANDUM OF DISAPPROVAL

I have withheld my approval from S. 3790, a private bill which would authorize a civil service survivor annuity retroactive to September 28, 1972, to Mrs. Camilla A. Hester as the widow of the late John A. Hester.

While I am sympathetic to Mrs. Hester's circumstances, S. 3790 unfortunately contains two precedent-setting provisions which I consider very undesirable, not only for future private relief legislation, but also for ordinary claims under the Civil Service Retirement System.

The first would require the Civil Service Commission to pay interest at 6 percent per annum retroactive to 1972 on the survivor's benefit which would be authorized by S. 3790. The second would require the Treasury to pay Mrs. Hester \$5,000 as compensation for her successful effort to be awarded the benefit. Neither of these provisions are appropriate, in my judgment, in bringing Mrs. Hester equitable relief.

For these reasons I am unable to approve S. 3790. I have signed other private relief legislation during the 94th Congress designed to rectify the inequitable circumstances arising from the "length of marriage" requirement in the civil service retirement law. However, those bills did not contain the objectionable provisions contained in S. 3790. I would be pleased, however, to consider legislation for Mrs. Hester that would provide appropriate relief without the objectionable features discussed above.

S. 2081

MEMORANDUM OF DISAPPROVAL

I am withholding my approval from S. 2081, the "Agricultural Resources Conservation Act of 1976."

S. 2081 would have required the Federal Government—the Soil Conservation Service of the Department of Agriculture—to appraise the land, water and related resources of the Nation, and to develop a plan and administer a program for the use of private and non-Federal lands.

I have several objections to S. 2081. The bill would set the stage for the creation of a large and costly bureaucracy to "cooperate" with State and local governments and private landowners in an attempt to insure land use in compliance with the master plan. Too often Federal "cooperation"—when accompanied by vast amounts of Federal dollars and a large bureaucracy—becomes Federal "direction."

I am not opposed to providing technical assistance to those who need it. The Federal Government, including the Soil Conservation Service, already does a great deal in the management and protection of our natural resources. My 1977 budget proposal called for outlays in excess of \$11 billion for these programs. Included in that amount is over \$400 million for the very program administered by the Soil Conservation Service to which this bill is directed.

In addition, the bill would subject the President's statement of policy—a document that would be used in framing Executive Branch budget requests for this program—to a 60-day review period during which either House of Congress may disapprove the statement of policy by simple resolution. This would be contrary to the general principle of separation of power whereby Congress enacts laws but the President and the agencies of government execute them. Furthermore, it would violate Article I, section 7 which requires that resolutions having the force of law be sent to the President for his signature or veto.

In summary, S. 2081 would violate the principles of fiscal responsibility, minimum Federal regulation, separation of powers, and constitutional government, and accordingly, I withhold my approval.

S. 1437

MEMORANDUM OF DISAPPROVAL

I am withholding my approval of S. 1437, the Federal Grant and Cooperative Agreement Act of 1976.

This legislation has a laudable goal—to clarify and rationalize the legal instruments through which the Federal Government acquires property and services and furnishes assistance to State and local governments and other recipients. The bill would establish three categories of legal instruments which Federal agencies would be required to use: procurement contracts, grant agreements, and cooperative agreements. These categories would be defined according to their different purposes.

S. 1437 would also require the Director of the Office of Management and Budget to undertake a study which would (1) "develop a better understanding of alternative means of implementing Federal assistance programs . . .", and (2) ". . . determine the feasibility of developing a comprehensive system of guidance for Federal assistance programs."
