Agriculture to release a condition with respect to new applications for use of the University of Arizona; and for other purposes; and (2) the Internal Revenue Code of 1954 and title II of the Social Security Act to provide for the treatment as a tax-exempt nonprofit organization with respect to its employees shall constitute (for both tax and benefit purposes) the constructive filing by such organization of the certificate otherwise required to provide social security coverage for such employees if it has not received, within the prescribed time, such certificate, and to require the filing of such a certificate by any nonprofit organization which paid such taxes but not received a refund or credit because it had not previously filed such certificate.

MEMORANDUM OF DISAPPROVAL

I have withheld my approval from H.R. 4564, a bill "For the Relief of Day's Sportswear, Incorporated." Further, H.R. 4564 would constitute preferred treatment of one importer against others having similar claims against the Government.

Finally, I believe that private relief legislation is appropriate only after all other avenues of available administrative and legal recourse have been pursued.

For these reasons, I have withheld my approval from H.R. 4564.

MEMORANDUM OF DISAPPROVAL

I am today withholding my signature from H.R. 5446, a bill to implement the United States obligations under the Convention on the International Regulations for Preventing Collisions at Sea, 1972.

The bill includes a provision which I believe to be unconstitutional. It would empower either the House of Representatives or the Senate to block amendments to the Convention’s regulations merely by passing a resolution of disapproval.

This provision is incompatible with the express provision in the Constitution that a resolution having the force and effect of a law is constitutionally inappropriate for the Congress to enact.
I believe that this procedure is contrary to the Constitution, and that my approval of it would threaten an erosion of the constitutional powers and responsibilities of the President. I have therefore directed the Attorney General to become a party plaintiff in a lawsuit challenging the constitutionality of a similar provision in the Federal Election Campaign Act.

In addition, this provision would allow the House of Representatives to block adoption of what is essentially an amendment to a treaty, a responsibility which is reserved by the Constitution to the Senate.

This legislation would force impermissible shackles on the President's ability to carry out the laws and conduct the foreign relations of the United States. The President cannot function effectively in domestic matters, and speak for the Nation authoritatively in foreign affairs. His decisions under authority previously conferred can be reversed by a bare majority of one House of Congress.

The Convention—which has already been accepted on the Senate floor—makes important changes in the international rules for safe navigation. It will enter into force in July 1977. The United States should become a party to it. If the United States does not implement the Convention before it enters into force, there will be major differences between the navigational rules followed by U.S. ships and those of the other Contracting Parties. These differences will increase the danger of collisions at sea and create hazards to life and property at sea.

I strongly urge the 95th Congress to pass legislation early next year that will be consistent with our Constitution, so that the United States can implement the Convention before it enters into force.

H.R. 10073

MEMORANDUM OF DISAPPROVAL

I have withheld my approval from H.R. 10073, "An Act to provide for the mandatory inspection of domesticated rabbits slaughtered for human food, and for other purposes.

This bill would make applicable to domesticated rabbits, with minor exceptions, the provisions of the Poultry Products Inspection Act. It would require the Secretary of Agriculture to implement a mandatory inspection program for all domesticated rabbit meat sold in commerce, with certain exemptions related to type and volume of operations. It should be noted that the Food and Drug Administration already inspects rabbit meat to ensure that it complies with Federal pure food laws. Thus, there is no health protection reason for requiring mandatory Agriculture Department inspection of rabbit meat.

The effect of this act would be to substitute a mandatory taxpayer-financed Agriculture Department inspection program for a voluntary one that is now provided under applicable Federal and State laws by the processors and consumers of rabbit meat. Since the voluntary program already provides a means for certifying wholesomeness to those consumers who demand such protection for this specialty food and are willing to pay for the protection, I do not believe that a mandatory program is wise public policy.

In addition, it is estimated that the cost to the taxpayer of government inspection provided by this Act could be more than $25 million per year.

The limited benefit to be derived by a relative few consumers of rabbit meat cannot be justified in terms of the cost to the taxpayer. I therefore therefore do not approving H.R. 10073.
